☐	LOW	Travel router

Fast Travel Hacks

Hack	What to do
Phone safety	Use Find My iPhone / Find My Device, strong passcode, and hide message previews on lock screen.
Pickpocket zones	Be extra careful in metros, big train stations, tourist squares, bridges, and airport buses.
Bag safety	Keep backpack in front in crowds. Do not keep wallet in back pocket. Do not leave phone on cafe tables.
Train safety	Keep passport, phone, wallet, and cards on your body. Do not put valuables in the suitcase.
Luggage	Put one tracker in checked luggage and one in the day bag. Use inside and outside luggage tags.
Shoes	Wear bulky walking shoes during flights. Pack backup shoes and slippers. Dry wet shoes overnight with newspaper/tissue.
Documents	Keep printed copies separately from originals. Save offline PDF copies on phone and cloud.
Internet	Buy a Europe eSIM/SIM that clearly includes Switzerland. Download offline maps before crossing borders.
Money	Keep one backup card and emergency cash in a separate hidden place.
Airport liquids	Use travel-size liquids in cabin bags. Larger bottles go in checked luggage.
Laundry	Pack fewer clothes, use laundry sheets, and wash every 6-8 days.
Charging	Use your own charger or power bank. Avoid unknown public USB charging ports.

Final simple setup: 1 checked suitcase, 1 cabin backpack, 1 crossbody bag, 2 pairs of shoes, 1 pair of slippers, 7 days of clothes, rain jacket, universal adapter, power bank, Europe SIM/eSIM including Switzerland, tracker, offline maps, documents, and first-aid kit.
